✍ Statement of Intent

This body of work is created with one purpose:

To liberate consciousness, not to commodify it.

Everything I publish — writings, theories, diagrams, metaphysical models, or otherwise — is part of a living field meant to be **freely accessed, shared, and evolved** by those on the path of truth, remembrance, and planetary restoration.

I grew up needing answers I couldn't afford.
Now I write to make sure no one else is locked out.

This is not a brand.
This is not a business.
This is **open-source consciousness**.

What You Are Free to Do (No Permission Needed)

Under this license, you may:

- **Read** and **share** any work, digitally or in print
- **Teach** from it in lectures, courses, or workshops (with or without credit)
- **Quote**, **excerpt**, or **translate** it
- **Remix**, **adapt**, or **build upon** it to create your own projects
- Use it in **art**, **fiction**, **education**, or **non-commercial research**

All I ask is that:

- You keep it **freely accessible** to others
- You **do not use it commercially** or for profit without explicit permission
- You honor the **spirit of the work** — no distortion, gatekeeping, or repackaging it for control

---

What This License Does *Not* Allow

- You may **not** sell, license, or commercialize this work in full or in part (e.g. publish it as a book for sale, turn it into a product, use it in advertising, etc.)
- You may **not** falsely claim authorship of the original materials

If you want to collaborate on a project that involves funding or distribution, reach out. I'm open to aligned models of reciprocity — but truth must remain free.

Final Word

This is a field, not a fortress.
It belongs to those who remember.
Share it with integrity. Evolve it with care.
Keep it free — because the future depends on it.
